Total Knowledge and the great thinkers and leaders throughout the ages

with Raja Peter and Professor Ken Chandler

This course offers a feast of inspiration through connecting Maharishi's knowledge with the insights of the greatest visionaries of all time. Dr Ken Chandler brings out the fruits of 40 years of profound research guided by Maharishi, which reveals how the teachings of the great thinkers, philosophers, spiritual leaders, and other luminaries throughout the ages not only reflect the same vision but bring fresh insight through unique and original expressions.

The course was first offered to great acclaim at Maharishi International University last summer and has now been further developed and enriched. It will be structured around the 12 faculties of the Total Knowledge chart – education, health, agriculture, economy, administration, defence, etc. – showing how Maharishi's vision of ideal life in all these important areas fulfils the aspirations of the wise throughout the ages.

Dr Chandler highlights the universality of the experience of transcending and transcendental consciousness amongst the greatest thinkers and leaders. He shows how the practice of transcending makes Total Knowledge available to everyone and how Maharishi's method of transcending is the ground of universal valid knowledge. Dr Chandler will make available to course participants proof copies of several of his books, including *Veda and Greece*, *The Renaissance to Kant* and *The Enlightened Jesus* through Amazon, at a special reduced rate.

Henry David Thoreau wrote of his experience: *"Direct your eye right inward, and you'll find a thousand regions in your mind, yet undiscovered. ... We are clarified and calmed...and become like a still lake of purest crystal and without an effort our depths are revealed to ourselves."* We can *"be a Columbus to whole new continents and worlds within."*

Raja Peter

Dr Peter Warburton is Chief Executive of Maharishi Foundation, UK, as well as several other nations. He has a doctorate in Supreme Political Science from Maharishi University of World Peace. His thesis included the elaborate displays of Total Knowledge charts which he worked on under Maharishi's guidance. In 1971, Raja Peter graduated with a Masters degree in Social and Political Sciences from Cambridge University. He then became a teacher of TM and started working directly with Maharishi continuously for the next 36 years. During that time, Maharishi tutored Raja Peter personally to bring out the specific curriculum of Total Knowledge — Maharishi's Vedic Science — which Raja Peter has been doing so inspiringly since 2008. At the same time Raja Peter is also developing the application of Total Knowledge in new directions that Maharishi specified, as we see in our ongoing course calendar in the Maharishi Peace Palace.

Professor Ken Chandler

Dr Ken Chandler holds a PhD in philosophy from the University of Texas at Austin. He is Distinguished Professor Emeritus at Maharishi University of Management and was formerly the chair of the Department of the Science of Creative Intelligence.
